

# Bullard Accessories

## Extra Advantages for Critical Needs

Firefighters rely on Bullard thermal imagers to save lives. They also rely on the Bullard complete line of thermal imaging product accessories engineered for reliability and safety. All of the Bullard products are innovatively-designed to provide firefighters with an added advantage when on the job.

### Make the most of your thermal imager.

- Mobile Command Center
- TacPole
- SceneCatcher™
- Transmitter System
- MobileLink™ Handheld Receiver
- Powerhouse Truck Charger
- Retractable Strap
- TacPort
- Glare Shield
- Hard Case
- Alkaline Pack

**NEW!**

## Mobile Command Center

The new and improved Mobile Command Center digitally records transmitted video from a Bullard Thermal Imager and encourages team viewing with its large 15.4-inch monitor. The unit gives firefighters the mobility they need to view an incident from a command station by receiving, displaying and playing back critical, lifesaving video transmitted from a thermal imager. Its rugged briefcase-style makes for easy maneuverability and operation.

### Features:

- Large 15.4-inch display
- Works with all Bullard thermal imagers
- Triple Powered:
  - 110/240v Wall
  - 12v Vehicle
  - Three-plus hours from internal battery
- Two-channel receiving capability
- Screen playback
- Dry erase surface for easy note-taking

### Part number:

DMCC1

2-Channel Digital Mobile Command Center

## MobileLink™ Handheld Receiver

The MobileLink is designed for versatility by allowing an incident commander, safety officer or firefighter assistance team to monitor transmitted thermal imaging video while on the move. Its compact, easy-to-use handheld receiver fits the needs of every firefighter. MobileLink uses no cords or bulky antennas and allows the user to monitor a scene from up-close or from distances up to 600 feet through typical construction.

### Part numbers:

ML1

2-Channel MobileLink with battery, battery charger, and AC/DC adaptors

ML2

2-Channel MobileLink only

ML3

4-Channel MobileLink with battery, battery charger, and AC/DC adaptors

ML4

4-Channel MobileLink only

## Powerhouse Truck Charger

The Powerhouse truck charger is the perfect home for your Bullard T3 or T4 Thermal Imager when it's not in use. Ruggedly-durable, the Powerhouse charges two batteries at once and meets NFPA 1901-10-1.7 standards. It features a unique locking mechanism to keep your thermal imager secured and is mountable in multiple orientations.

### Part number:

POWERHOUSE

Truck mount direct charge system

## Retractable Strap

Designed with the rigors of firefighting in mind, Bullard's extendable strap keeps your Thermal Imager out of the way while crawling and working.

### Part number:

T3RETRACT

Retract strap for all thermal imagers

## Glare Shield

The Glare Shield eliminates glare in daylight operations and can be held at arm's length or close to the user's face.

### Part numbers:

T3GLARESHIELD

T4GLARESHIELD

**NEW!**

## TacPole

The TacPole lets firefighters see areas that are not easily viewable. Attaching a Bullard Thermal Imager to the TacPole gives firefighters the capability to see over walls, attics, suspended ceilings or into basements or collapsed buildings. Its quick-attach design makes for easy transitioning of the thermal imager from the pole to a handheld operation.

### Features:

- Three-section extension
- Extends to 71-inches
- Retracts to 30.5-inches
- Quick-attach to auto-lock Bullard thermal imagers
- Rotating and sliding remote screen for easy viewing
- Remote display detaches from pole
- Electrically isolate grips for safety
- Optional transmitter works with Bullard MobileLink or Mobile Command Center
- Rugged Pelican® case

### Part numbers:

TP TacPole

TPTRANS1 TacPole with built-in transmitter

## SceneCatcher

Housed in a rugged Bullard TI handle, this digital video recorder simultaneously captures 60 minutes of video and more than 300 still images from a Bullard Thermal Imager. Digital images and videos download easily through a USB. The SceneCatcher offers seamless operation with the Bullard transmitter system.

### Part numbers:

SS Scenecatcher DVR

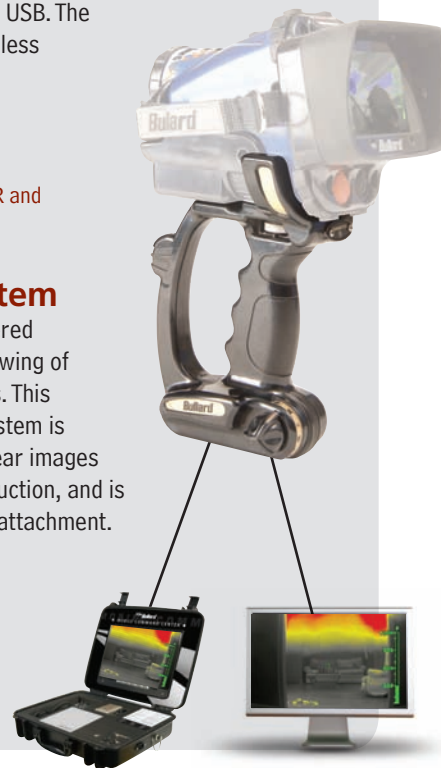

SSTRANS2 SceneCatcher DVR and 2-channel transmitter

## Transmitter System

Bullard offers a high powered transmitter for remote viewing of up to two thermal imagers. This lightweight transmitter system is capable of transmitting clear images through residential construction, and is housed inside a TI handle attachment.

### Part number:

HANDLETRANSONLY2  
2-Channel transmitter

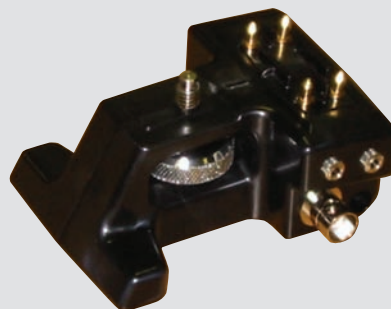

## Hard Case

Hard carrying case will hold your Thermal Imager, Transmit Handle, MobileLink, TacPort, charger and two spare batteries.

### Part number:

HARDCASE

## TacPort

Thermal imagers can be converted from a highly mobile, handheld device to a longer term, fixed position surveillance unit. The TacPort attachment provides video-out functionality and auxiliary power ports for extended operation from an external power supply such as a vehicle's cigarette lighter. Includes 12v power cord.

### Part number:

TACPORT

## Alkaline Pack

Power your T3 or T4 Series Thermal Imager with ordinary AA batteries. The Alkaline Pack can be used during high-rise or wildland operations or anytime your TI is deprived of the ability to recharge.

### Part number:

T3ALK

# Where does Bullard get the ideas for accessories? From you.

Bullard accessories are created from comments we receive from firefighters in the field. When a firefighter says, "I could really use that," we're there to provide the solution. Whether it's battling a fire or investigating a blaze, responding to a search and rescue call, or examining hazardous materials, the Bullard products help firefighters save lives.
