

3M™ SCOTT™ AIR-PAK™ X3 PRO CONVERSION PROGRAM

Upgrade your equipment relying on comfort, resistance and cleanability.

FEATURES	BENEFITS
Improved design for the shoulder harness	Provide easier donning and lower pressure zones.
Naturally Articulating Waist Pad	Promotes greater range of motion to the firefighter, while transferring weight to the hips for a more balanced load. Reduces usual wear and tears seen with mechanical joints.
New Harness Materials	Offer greater resistance to chemical exposure and less water absorption to help minimize contamination.
3M™ Scotchlite™ Reflective Material	Enhances visibility of the SCBA when operating in low light conditions, improving safety and accountability on the fireground.

CLEANABILITY

The SCBA harness has been designed so it can be easily removed, while resisting to chemical exposure. The material absorbs less water and minimize contamination.

COMFORT

With a superior permeability, the naturally articulating waist pad and the aluminium alloy backframe, this conversion brings comfort to another level.

SAFETY AND PERFORMANCE FROM ALL SIDES

NEW HARNESS MATERIALS

offer greater resistance to chemical exposure and less water absorption to help minimize contamination.

ALUMINIUM ALLOY BACKFRAM

offers a lightweight, durable design to withstand the rigors of the fireground.

NATURALLY ARTICULATING

WAIST PAD promotes greater range of motion to the firefighter, while transferring weight to the hips for a more balanced load.

3M™ SCOTCHLITE™ REFLECTIVE MATERIAL

enhances visibility of the SCBA when operating in low light conditions, improving safety and accountability on the fireground.

Proven. Trusted. Performance.
