ready for action

CenterCut™ PLUS

with

GORE-TEX BARRIER TECHNOLOGY

Providing Optimal Thermal Protection,
While Keeping Your Bunker Gear Drier

Starfield LION's exclusive CenterCut PLUS with GORE-TEX Barrier Technology provides safety, comfort and flexibility in a lightweight bunker gear package. With a new level of thermal protection never seen before, CenterCut PLUS reduces heat stress and provides up to 30% more sustained thermal protection (even when wet) than a conventional liner system in a working fire.*

* Modified stored energy test ASTM F2731 (No compression, wet cotton t-shirt)

Features/Benefits:

- ▶ Designed for greater sustained thermal protection when wet
- ▶ Up to 30% more time to second degree burn over a standard liner system
- ▶ Up to 10% less body burn over a standard liner system
- ▶ Unique orientation and layering provides air gaps between layers, keeping the thermal insulation drier
- ▶ Meets the NFPA 1971, 2018 Edition Standard
