

Gorgui Classic

Model patented by Vallfirest Tecnologías Forestales S.L.

A versatile tool for all types
of grounds and fuels.

Gorgui Classic

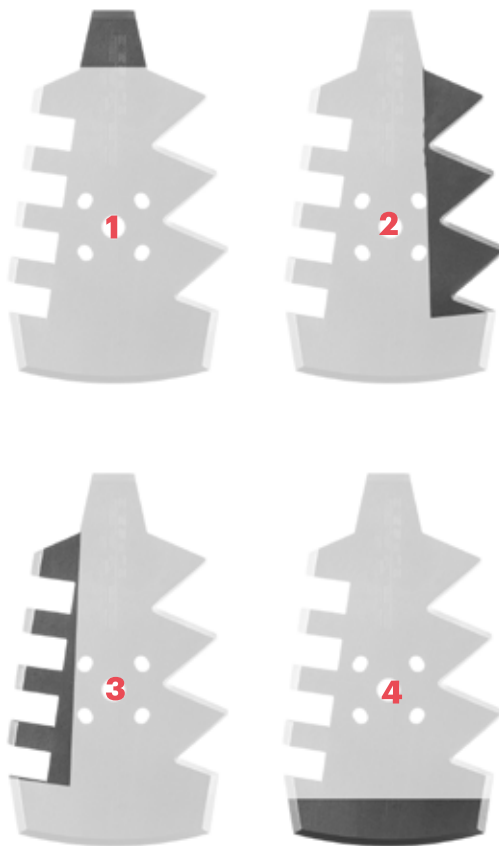

A versatile tool for all types of grounds and fuels

The multi-purpose tool **Gorgui Classic** is designed for wildland fire fighting. It was created out of the experience and needs of the most advanced firefighting brigades in the use of manual tools. The main feature is the versatility on all types of ground with a combination of all the most commonly used tools for wildland fire extinction in one.

Multi-purpose

A replaceable cutting blade that works just as all the most commonly used tools for wildland fire extinction. The blade is sharpened on the inside and outside for the greatest of efficiency with all the different tasks.

- Narrow hoe: Digging in resistant rocky terrain.¹
- Raking and cutting: Highly resistant tines. Less impact surface and greater cutting surface.²
- Dragging (McLeod): Easier stripping and dragging.³
- Wide hoe: Digging in soft organic terrain.⁴

* The multi-purpose tool Gorgui Classic is a patented model produced exclusively by Vallfirest Tecnologías Forestales S.L.

Technical specifications

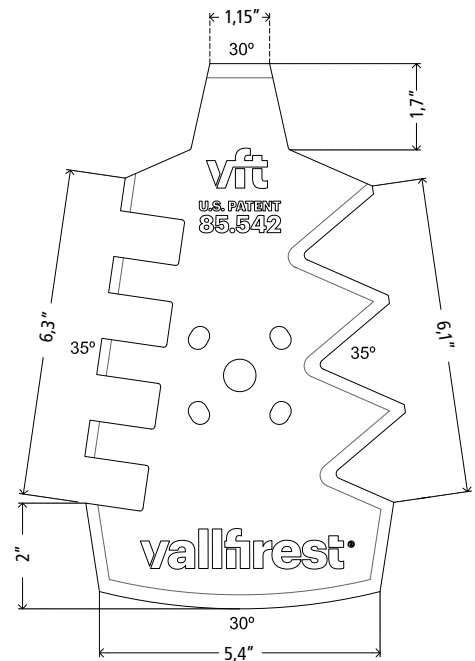

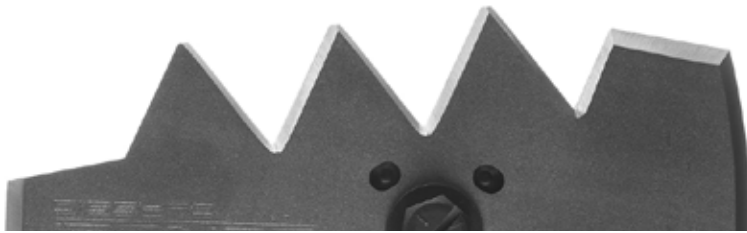

Head material	Anti-wear Hardox 450 steel.
Handle material	Eucalyptus wood.
Dimensions	10.5 x 6.2 in 268 x 158 mm
Handle weight	1.76 lbs 800 g
Total weight	4.76 lbs 2.16 kg

1 Cutting blade

Produced with abrasion-resistant anti-wear steel sheet metal with a nominal hardness of 450 HBW. The bending and cutting angles are optimized for easier use of each tool and to increase performance of the work.

Technical specifications

- Thickness: 0.15 in (4 mm).
- Dimensions: 10.5 x 6.2 in (268 x 158 cm).
- Hardness: 420 - 500 HBW.

2 Handle and head

An ergonomic eucalyptus wooden handle with different diameters for a short grip to dig and a long grip to cut and drag.

Technical specifications

- Weight of the handle + head: 1.76 lbs (800 g).
- Total length of the handle: 4 ft (1.25 m).
- Maximum diameter of the handle: 1.4 in (35 mm).
- The handle is coupled to the head with a pressure and elastic pin-fixed head system.
- The blade couples to the head with a screw, a self-locking washer and 4-point anti-rotation adjustment (compatible with the traditional Mcleod handle).

3 Optional sleeve

The **Gorgui Classic** sleeve to carry the tool on the back for free hands and anti-cut protection.

Technical specifications

- Material: Cordura 1000 D.
- Adjustable nylon strap for carrying on the back.
