

NEW PRODUCT

HEN[®]
TECHNOLOGIES

TITAN FLASH

Quick Attack Portable Monitor

- ✓ Patented BLADE 500 nozzle
- ✓ Light, compact, easy to set-up
- ✓ Flows 205-600GPM with 180' of reach
- ✓ +17deg to +70deg vertical, +40deg horizontal travel

TITAN FLASH delivers high-flow performance, portability, and precise stream control in a compact, durable design. Available with patented BLADE™ 500 nozzle, it provides the reach, coverage, and versatility needed for demanding fireground operations.

Wide BLADE pattern coverage

Horizontal and vertical rotation with wide BLADE pattern

Improved reach and penetration

Stream produces large droplets for better penetration and cooling

Lightweight portable design

Large integrated handle for rapid deployment or repositioning

Precise stream placement

Elevation and travel adjustments provide precision coverage

NEW PRODUCT

TITAN FLASH

Quick Attack Portable Monitor

Overview

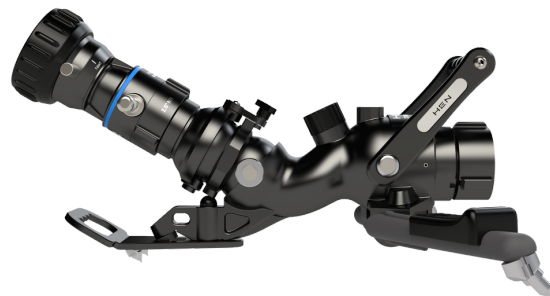

TITAN FLASH delivers high-flow performance, portability, and precise stream control in a compact, durable design. Available with patented BLADE™ 500 nozzle, it provides the reach, coverage, and versatility needed for demanding fireground operations.

Benefits

- Elevation range: +17° to +70°
- Horizontal travel: 40° (±20° from centerline)
- Available with BLADE 500 nozzle (tight stream and patented BLADE coverage)
- Flow range: 205 GPM @ 30 PSI to 600 GPM @ 150 PSI
- Reach: 180 ft
- Light corrosion-resistant aluminum alloy construction
- Valve: Hard anodized aluminum alloy
- Folding legs: Hard anodized aluminum alloy
- Stainless steel ground spikes
- Large carry handle for excellent portability
- Spring-loaded forged aluminum folding legs
- Rubber knee pads for stability
- Integrated safety tie-down strap reel

Operational Benefits

- Rapid deployment
- Greater stand-off distance
- High-volume suppression
- Extended reach
- Remote water delivery
- Adjustable stream applications
- Versatile deployment
